

Forklift Big Brush Sweeper (1500mm x 500mm)

Overview

The Forklift Big Brush Sweeper is a heavy-duty attachment designed for efficient sweeping of large areas such as warehouses, construction sites, and yards. With its robust construction and wide sweeping path, it ensures quick and effective cleaning.

Key Features

- **Sweeping Width:** 1500mm
- **Bristle Rows:** 8 rows of heavy-duty polypropylene bristles
- **Construction:** Manufactured from thick plate steel with reinforced edges for enhanced durability
- **Finish:** Industrial two-pack paint for long-lasting protection
- **Fork Pockets:**
 - Internal Dimensions: 145mm (width) x 75mm (height)
 - Center Spacing: 790mm
- **Mounting:** Easily mounts onto forklift forks and is secured with locking pins behind the heels of the forks
- **Operation:** Can be used to brush forward or trail back, with heel pins ensuring the sweeper remains securely attached
- **Maintenance:** No moving parts, reducing the risk of mechanical failure
- **Resting Stands:** Equipped with wide-base resting stands to maintain bristle shape and prevent deflection.

Applications

Ideal for sweeping and cleaning in various sectors, including:

- Warehouses
- Construction sites
- Grain sheds
- Livestock areas
- Factory floors

Additional Options

- **Sizes Available:** 1500mm
